Prime Vantage Protector

When you have worked hard to build a future for you and your family, knowing they will be looked after no matter what brings real peace of mind. With **Prime Vantage Protector**, just a single premium secures flexible lifelong protection and long-term savings. The plan safeguards your loved ones against the financial impact of mishap and automatically adjusts your life cover as your life evolves. We give you a guaranteed cash value as well as a non-guaranteed terminal bonus to help secure and grow your wealth. Finally, you can pass on your wealth to your loved ones to leave a lasting legacy.

Plan highlights

Lifelong protection

Lifelong, premier protection with just a single premium payment

Your protection adapts as your life evolves

Opportunities to grow and pass on your wealth

Grow and preserve your wealth

Distribute your wealth flexibly as your family grows

Safeguard yourself, your family and your business no matter what the future holds

Appoint a family member in advance to manage the policy if you become incapacitated

Ensure the continuity of your business

Easily enhance your cover in the future without a medical examination

Lifelong protection

Lifelong, premier protection with just a single premium payment

With just **one, single premium payment**, you can secure **whole life cover** to protect your family's financial future should anything happen.

We will pay a Death Benefit to the beneficiary you choose if the person covered by the policy (the "life assured") passes away while the policy is in force.

Your protection adapts as your life evolves

As your life evolves, so does your financial focus. We have designed your plan so that it automatically adjusts your life protection to suit your needs as your life and responsibilities change.

In your younger years, the financial demands of starting a family and the responsibilities this brings may require more protection. To safeguard your loved ones' financial security, we will pay **up to 100% of the sum assured as a guaranteed Death Benefit**, less any outstanding loans and interest, if the life assured unfortunately passes away.

As the years go by, children become independent and family financial commitments decrease, so the plan **automatically adjusts its guaranteed life protection downward** to match, **shifting the focus to growing wealth**.

We may also **pay the non-guaranteed one-off Terminal Bonus** when we pay the Death Benefit on or after the 15th policy anniversary.

You can find more information in the "Death Benefit and its settlement option" in the "More about the plan" section below.

Opportunities to grow and pass on your wealth

Grow and preserve your wealth

Prime Vantage Protector enables you to **preserve** your **assets** and potentially watch your **wealth grow** to form a solid financial foundation for your children or grandchildren. This could help them pursue a top-flight education or even help them start their first business.

As soon as your policy starts, its **guaranteed cash value** is around **85%*** **of your single premium**. As time goes on, you can see your **money growing through the policy years**. We pay the guaranteed cash value when your policy is terminated (other than when the life assured passes away).

We may also **pay the non-guaranteed one-off Terminal Bonus** when your policy is terminated on or after the 15th policy anniversary.

To give you more financial flexibility, if you need your money for any reason, you can access the Total Cash Value of your plan or borrow up to 80% of its guaranteed cash value while keeping it in force.

* The figure may differ slightly from the actual amount because of rounding differences.

Good to know

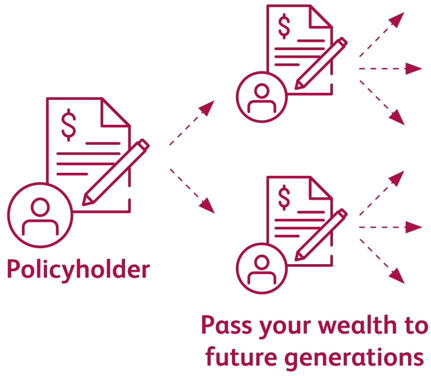
Understanding your Shareholder-backed Participating Plan

This is a Shareholder-backed Participating Plan. The current long-term target asset allocation of your plan is 55% in fixed-income securities and 45% in equity-type securities. Click here or scan the QR code for more information on our Shareholder-backed Participating Plans, including our investment and bonus philosophies and the operation of the Shareholder-backed Participating Fund.

Shareholder-par Plans

Distribute your wealth flexibly as your family grows

As your family grows, you may want to include more loved ones in your legacy planning and distribute your wealth in the way you choose. Starting from the 5th policy anniversary, you can **separate your policy into several policies** by exercising the **Policy-Split Option**. This means you can pass your accumulated wealth to your loved ones as meaningful gifts.



Safeguard yourself, your family and your business no matter what the future holds

Different death benefit settlement options to safeguard your family

You can choose how you would like us to pay the Death Benefit while the life assured is still alive; as a **lump sum**, in **monthly instalments** or **a mix of both**. These options allow you to protect your family flexibly as you wish.

Appoint a family member in advance to manage the policy if you become incapacitated

Life can be full of uncertainty, which is why it is so important to plan for contingencies. Starting from the 3rd policy anniversary, you can choose a loved one as the **successive policyholder** to manage the policy in case you become incapacitated, either mentally or physically.

Under this plan, you can **appoint**, **change** or **remove** the **successive policyholder as many times as you wish** as long as there is only 1 successive policyholder at a time.

Ensure the continuity of your business

The impact of a key employee's death can be huge. Even if you are able to recruit a replacement, this takes time – and could potentially affect profitability.

If you own a business, you can use the plan to provide **keyman insurance** to give you and your firm **more security**, using the Death Benefit, if a key employee unfortunately passes away.

Easily enhance your cover in the future without a medical examination

To make it easier for you to enhance your life cover in the future – perhaps if you have more children or other commitments – you can apply for our **Pre-Underwriting Option**. This means we can **pre-approve** you for an **overall level of cover** within a certain period of time, based on your **existing medical condition**. When **applying for a new policy** under the same plan, you will not need to undergo a medical examination again – all you will need to do is answer a **few health questions**, as long as the total sum assured of all your policies is not more than the overall level of cover we have approved, subject to other underwriting rules.

Good to know

Some benefits or options will be affected once you exercise the Policy-Split Option or change the policyholder. You can find more details in the "More about the plan" section below.

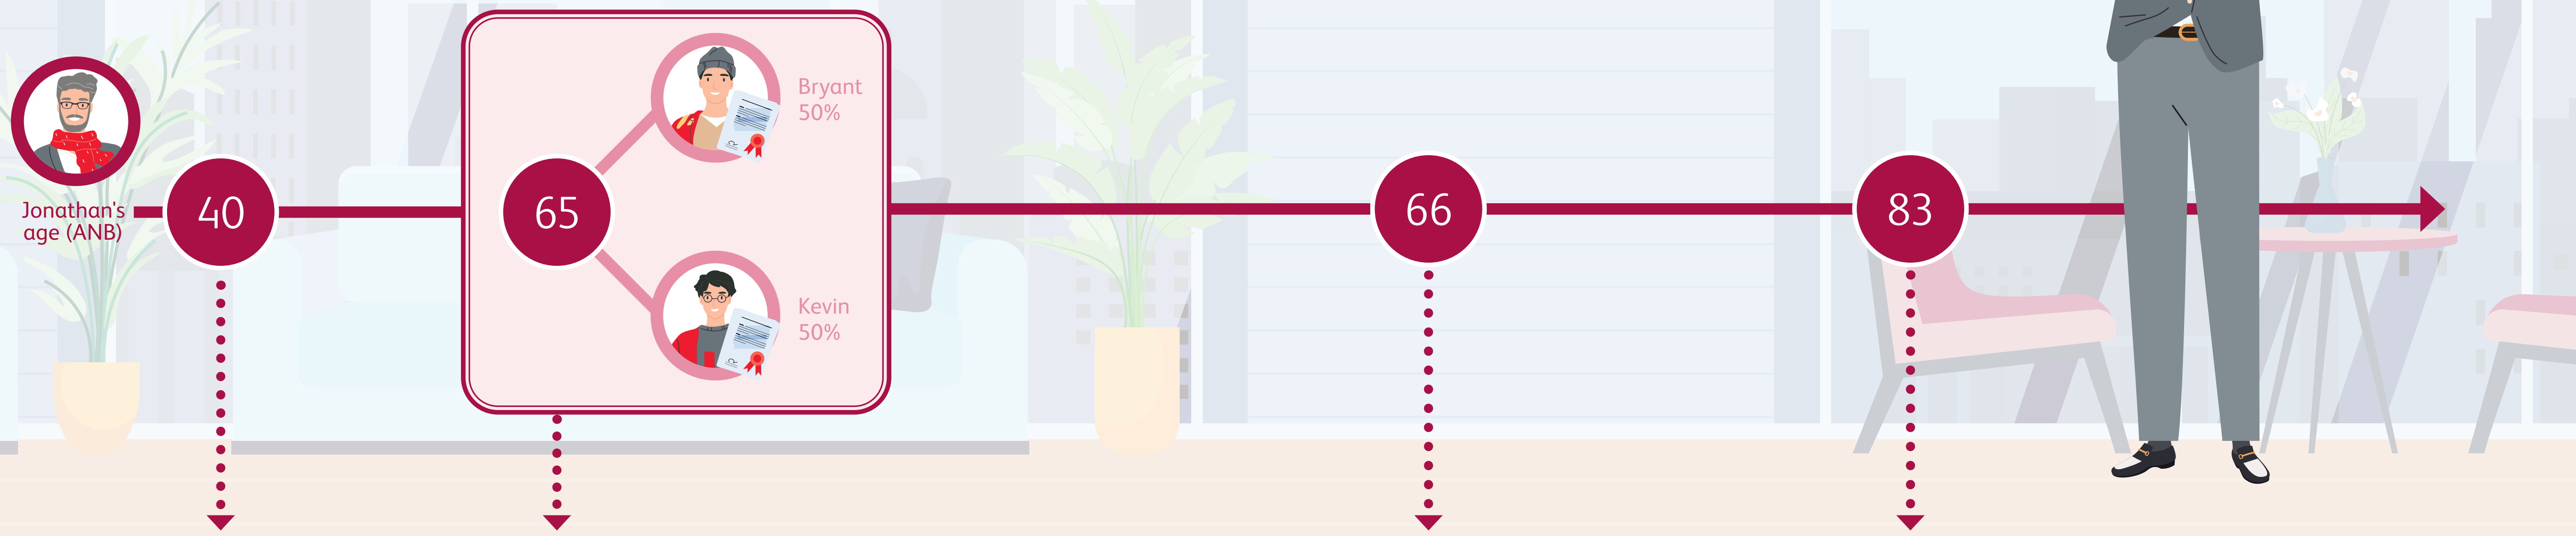
How does the plan work?

To safeguard the future for your loved ones

Jonathan is a 40-year-old (age next birthday [ANB]) entrepreneur who wants to make sure his 2 sons, Bryant, and Kevin, will be financially secure if he unfortunately passes away.

To give his plan a strong start, he enrols in the **Prime Vantage Protector** for himself with a sum assured of USD 3,000,000. To pass on his accumulated wealth, he will use the **Policy-Split Option** to split the plan between his 2 sons.

Jonathan's policy details	
Sum assured	USD 3,000,000
Single premium	USD 543,270



40

Policy starts

Protection

The Death Benefit of Jonathan's policy = **USD 3,000,000**[1]; around **5.5 times** of the single premium. Jonathan can rest assured knowing that his family will be financially sound even if he passes away.

Savings

The Total Cash Value of his policy = **USD 461,790**[2]; around **85%** of the single premium.

65 – 2nd generation

To pass his wealth on, Jonathan separates his policy evenly into 2 and **transfers the ownership** of each policy to Bryant and Kevin respectively.

As the new policyholders, they can choose to i) separate their policies; ii) let the savings grow continually; or iii) withdraw part of their policy values when they need to.

Protection

The sum of the projected (non-guaranteed) Death Benefit of their 2 policies = **USD 4,558,680**[3]; around **8.4 times** of the single premium.

Savings

The sum of the projected (non-guaranteed) Total Cash Value of their 2 policies = **USD 1,284,672**[4]; around **2.4 times** of the single premium.

66

As Jonathan's family financial commitments decrease, the plan **automatically reduces its guaranteed Death Benefit by 3.3% of the sum assured on each of the 15 policy anniversaries** starting from the policy anniversary that follows immediately after Jonathan (as the life assured) reaches age 66 (ANB)[5] for the 2 split policies.

83 – 2nd generation

Given Bryant and Kevin **didn't withdraw any policy value**.

Protection

Despite the life protection adjustment, Bryant and Kevin can still receive the projected (non-guaranteed) Death Benefit of their 2 policies; a sum of **USD 6,346,950**[6]; around **11.7 times** of the single premium.

Savings

The sum of the projected (non-guaranteed) Total Cash Value of their 2 policies = **USD 4,114,081**[7]; around **7.6 times** of the single premium.

1 Consists of 100% of the sum assured.
2 Consists of the guaranteed cash value.
3 Consists of USD 3,000,000, 100% of the sum assured and USD 1,558,680, the face value of the non-guaranteed Terminal Bonus.
4 Consists of USD 483,510 guaranteed cash value and USD 801,162, the cash value of the non-guaranteed Terminal Bonus.
5 Means the policy anniversary that follows immediately after the life assured's 65th birthday.
6 Consists of USD 1,515,000, 50.5% of the sum assured (100% sum assured – 3.3% sum assured * 15 policy anniversaries) and USD 4,831,950, the face value of the non-guaranteed Terminal Bonus.
7 Consists of USD 543,270 guaranteed cash value and USD 3,570,811, the cash value of the non-guaranteed Terminal Bonus.

About Jonathan's policy:

- We assume in the above example that Jonathan is a non-smoker and residing in Hong Kong.
- You cannot change the life assured under this policy.
- The figures are only for illustration, and we have calculated them with reference to the sum assured. The example is not an indicator of future performance, and the actual return may be higher or lower subject to investment performance.
- The estimated non-guaranteed benefit is based on our bonus scale considering current assumed investment returns. This is not an indicator of the future non-guaranteed benefits.
- The above calculation assumes no cash value withdrawal and no policy loan while the policy is in effect. The figures in the above case may differ slightly from the actual amounts because of rounding differences.
- Applications for exercising the above-mentioned Policy-Split Option or feature are subject to our approval and you can find more details in the "More about the plan" section below.

More about the plan

Plan type
Basic plan

Benefit term
Whole life

Premium term/Issue age/Currency/ Minimum sum assured

Premium term	Issue age (ANB)	Currency	Minimum sum assured
Single	19 – 75#	USD	USD 500,000

subject to our prevailing underwriting rules.

Premium structure
- We will determine the premium based on the risk class (including but not limited to issue age, gender, smoking status and country of residence) of the life assured.

Terminal Bonus
- This is a one-off non-guaranteed bonus.
- We normally declare bonus annually and may change the bonus from time to time.
- We have the right to determine and declare the bonus more frequently than annually at our sole discretion.
- The declared bonus may rise and fall and does not accumulate within the policy or form a permanent addition to the policy's value.
- From the 15th policy anniversary, we will declare the bonus for your plan.
- The declared bonus has a face value which we may pay if the life assured passes away.
- The bonus also has a non-guaranteed cash value which we determine by a variable cash value discount factor. When your policy is terminated (other than when the life assured passes away), we will pay the bonus's non-guaranteed cash value – not its face value.
- We have the right to determine bonus rates, cash values and frequency of declaration at our sole discretion.

Factors affecting the Terminal Bonus
- The Terminal Bonus we pay is not guaranteed and is subject to review and adjustment at our discretion. Factors that may affect it include (but not limited to):
  i. Investment performance factors – Your plan's performance will be affected by the return on its underlying investment portfolio. This could be driven by:
     - interest earnings from fixed-income securities and dividend from equity-type securities (if any);
     - capital gains and losses from investment assets;
     - counterparty default risk of fixed-income securities (such as bonds);
     - investment outlook; and
     - external market risk factors such as recessions and changes in monetary policies and foreign exchange rates.

  ii. Claims factors – Our historical claims experience on Death Benefit and/or other covered benefits, and projected future costs of providing Death Benefit and/or other covered benefits.
  iii. Expense factors – These include direct expenses associated with issuing and maintaining your policy, such as commissions, overrides, underwriting and policy administration expenses. They may also include indirect expenses (such as general overheads) allocated to your policy.
  iv. Persistency factors – Policy persistency and any partial surrenders of a group of policies may impact the bonus we pay to the continuing policies.
- The actual future amounts of benefits and/or returns may be higher or lower than the values currently presented in the marketing materials. Our website at https://pruhk.co/bonushistory-SHPAR-en explains the bonus history.

Surrender value
When you surrender your policy, we will pay a surrender value equal to:
- the guaranteed cash value;
- **plus** the cash value of the Terminal Bonus (if any);
- **less** any outstanding loans and interest.

Death Benefit and its settlement option

- If the life assured unfortunately passes away while the policy is still in force, we will pay the beneficiary a Death Benefit as follows:

If the life assured passes away **before** the 15th policy anniversary or the policy anniversary that follows immediately after the life assured reaches age 66 (ANB)^, whichever is later	• 100% of the sum assured; • **plus** the face value of the Terminal Bonus (if any); • **less** any outstanding loans and interest.
If the life assured passes away **on or after** the 15th policy anniversary or the policy anniversary that follows immediately after the life assured reaches age 66 (ANB)^, whichever is later	• the **higher** of: ◦ 100% of the sum assured minus 3.3% of the sum assured on each of the 15 policy anniversaries starting from (i) the 15th policy anniversary and (ii) the policy anniversary that follows immediately after the life assured reaches age 66 (ANB)^, whichever is later; and ◦ 100% of the single premium you paid; • **plus** the face value of the Terminal Bonus (if any); • **less** any outstanding loans and interest.

^ Means the policy anniversary that follows immediately after the life assured's 65th birthday.

- **Death Benefit Settlement Option:**
  - You can decide, while the life assured is still alive, whether we pay your beneficiary the Death Benefit in a lump sum or as a series of monthly instalments or a mix of the 2. If the Death Benefit amount you opt to settle by monthly instalments is less than a certain amount we determine, we will only pay the Death Benefit in a lump sum.
  - You can choose to settle the monthly instalment in a certain number of year options we provide.
  - If you choose the monthly instalment option, your beneficiary will receive the Death Benefit of a fixed amount monthly and earn interest on the remaining Death Benefit amount. We will pay the accumulated interest in the last instalment. We will determine the interest rate from time to time. This means the rate is not guaranteed and it depends on several factors including investment performance and the yields available in the market.
  - The beneficiary cannot make any changes to the way we pay the benefits at any time.
  - The remaining balance of the Death Benefit, which we pay by monthly instalments, will not participate in the Shareholder-backed Participating Fund or benefit from its profits.
  - We will cancel any Death Benefit Settlement Option and will pay the Death Benefit in a lump sum when you:
    - change the policy ownership; or
    - assign the policy ownership; or
    - transfer the policy ownership to the successive policyholder; or
    - have not nominated a beneficiary; or
    - exercise the Policy-Split Option.

  You can refer to our website at https://pruhk.co/dbso-en for more details on the Death Benefit Settlement Option.

Policy-Split Option

- You can request to separate your policy into several policies once per policy year and within 30 days before the end of each policy year, starting from the 5th policy anniversary. This will not affect how we calculate the number of your policy years.
- You cannot change the life assured under this policy.
- We will split the sum assured and policy values (including the guaranteed cash value and Terminal Bonus) on pro-rata basis according to the policyholder's instructions.
- You cannot reverse or withdraw an application once we approve it.
- You will need to repay any money you owe us under the plan before we approve your application.
- The sum assured of your policies after you have exercised this option must not be less than the minimum amount we set.
- When we approve your application, we will cancel any
  - Death Benefit Settlement Option;
  - nomination of the beneficiary; and
  - successive policyholder you have appointed earlier.
- There is **no cooling-off period** for the separated policies.
- We may change the administrative rules for this option from time to time.

Appointment of successive policyholder

- Starting from the 3rd policy anniversary, you, as the existing policyholder, can appoint, change or remove the successive policyholder as many times as you wish, while the policy is in force, but please note the requirements summarised below. There can be only 1 successive policyholder under the policy, and the successive policyholder can only be your a) spouse, b) parent or c) child, and must be aged 19 (ANB) or above.
- The successive policyholder will become the new policyholder of the policy if the existing policyholder suffers from mental incapacity, terminal illness, coma, loss of independent existence, apallic syndrome, major head trauma or paralysis (the "Triggering Diseases").
- You cannot appoint a successive policyholder (or we will subsequently cancel the appointment of a successive policyholder) if any of the following events happens ("Relevant Events"):
  - you have set up an enduring power of attorney ("EPA") or a will;
  - you are insolvent or a bankruptcy proceeding has (or will likely be) been commenced against you;
  - you have assigned your policy;
  - your policy is not held by an individual;
  - your policy is subject to a trust (whether it is an implied, express, resulting or other trust) or held by a trustee;
  - you have exercised the Policy-Split Option;
  - there is a subsequent change of policyholder; and
  - a guardian/committee is appointed in respect of you under the Mental Health Ordinance (Cap. 136 of the laws of Hong Kong) ("MHO").
- If you want to appoint a successive policyholder and transfer the policy ownership to the successive policyholder, you must also meet our eligibility requirements and administrative rules and you will need our approval of your appointment.
- You or the successive policyholder (as the case may be) will need to tell us in writing if any of the Relevant Events happens unless it is already known to us.
- You should inform the successive policyholder in advance to submit your application to change the ownership of the policy from you to the successive policyholder within 1 year from when you are diagnosed with any of the Triggering Diseases.
- We will only transfer ownership to the successive policyholder after we have received all the documentation for the transfer. We will also go through our customer due diligence process before making our approval decision.
- Once the policy ownership is transferred to a successive policyholder, you cannot reverse this even if it is later proved that the original policyholder has recovered from the Triggering Diseases, unless the new policyholder transfers the policy back to you. However, if we have the legal obligation to do so, we may transfer the ownership of the policy back to the original policyholder, e.g. if we are ordered by the court or requested by the guardian/committee under the MHO or act on the lawful request of the trustee in the bankruptcy to do so. If this happens, any subsequent surrender or partial withdrawal made by the successive policyholder may potentially become invalid and need to be reversed. In any circumstances, we will not be liable for any such events.
- When we transfer the policy ownership to the successive policyholder, we will cancel any Death Benefit Settlement Option and nomination of a beneficiary.
- We may change the administrative rules for appointing, changing, and removing the successive policyholder from time to time. The appointment of a successive policyholder is an advanced policy instruction, and not an EPA or a guardianship/committee order and does not give the designated person any power or capacity as your attorney or guardian/committee (under the MHO).

Cash value withdrawal

- You can withdraw the Total Cash Value from the policy by reducing the sum assured.
- If the sum assured reduces, the subsequent guaranteed cash value and any Terminal Bonus will also reduce. Therefore, any cash value withdrawal will reduce the Death Benefit and surrender value payable.

Policy loan

- You can borrow up to 80% of your plan's guaranteed cash value, while keeping the policy in force.
- We will charge interest on policy loans from the date you take them out until they are fully repaid.
- We calculate interest at a rate we determine.
- If you have taken out a loan on your policy, we will use any payouts from it to settle any loans and interest before we pass the remaining money to you.
- If the total outstanding amount (including interest) owed to us under the policy exceeds 90% of the guaranteed cash value of the policy, we will terminate the policy immediately.

Termination of this plan

- We will terminate this plan when the first of these happens:
    - the death of the life assured; or
    - you surrender the policy; or
    - once the total outstanding loans and interest are more than 90% of the guaranteed cash value.
- We will also terminate the original plan when you exercise the Policy-Split Option as your policy value of the original plan will be transferred to your separated policies.

Investment philosophy

Investment strategy

We aim to protect the rights and manage the reasonable expectations of all Shareholder-backed Participating policyholders. Our investment objective is to maximise policyholders' returns with an acceptable level of risk. We do this through a broad mix of investments.

The Shareholder-backed Participating Fund invests in various types of assets, such as equity-type securities and fixed-income securities to diversify investment risks. The equity-type securities aim to provide policyholders with the potential for a higher long-term return.

We adopt an actively managed investment strategy, which we adjust in response to changing market conditions. Under normal circumstances, our experts allocate a smaller proportion of higher-risk assets, such as equities, to insurance plans with a higher guarantee and a larger proportion of higher-risk assets to insurance plans with lower guarantees. In doing so, we aim to match the level of risk to the risk profiles of our products. We may utilise derivatives to manage risks or improve returns. We may also make use of securities-lending to enhance returns.

The following paragraphs explain the current investment mix according to our investment strategy. Should there be any material changes in the investment strategy, we will inform you of the changes and explain the reasons behind and their implications.

The investment mix of your plan

The current long-term target asset allocation is as follows:

Asset type	Allocation (%) USD-denominated policies
Fixed-income securities	55%
Equity-type securities	45%

Our guaranteed liabilities to the policyholders are mainly supported by fixed-income securities.

We primarily invest in fixed-income securities rated at least investment-grade. A small portion of high-yield and emerging-market bonds may be included to improve yield and diversification.

For equity-type securities, most of the investments are in stocks listed on major international exchanges.

Our currency strategy is to broadly match the fixed-income securities to the underlying policy denomination, while we allow more flexibility for equity-type securities for diversification. Subject to market availability and opportunity, we may invest fixed-income securities in a currency other than the underlying policy denomination and currency hedging will be used to reduce the currency risk.

We invest globally to achieve diversification benefits and we currently have a higher relative allocation in the US and Asia which will be reviewed regularly.

We actively manage and adjust actual exposure in response to changing market conditions and opportunities. Given asset values may vary due to changes in the economic environment and investment performance, the actual allocation may vary from the target allocation above. On a regular basis, we review the investment mix to be in line with our investment objectives and risk appetite. For more information on the investment mix, please refer to https://pruhk.co/investmentmix-en.

Key risks

How may our credit risk affect your policy?
The guaranteed cash value (if applicable) and insurance benefit of your plan are subject to our credit risk. If we become insolvent, you may lose the value of your policy and its coverage.

How may currency exchange rate risk affect your return?
Foreign currency exchange rates may fluctuate. As a result, you may incur a substantial loss when you choose to convert your benefits to other currencies. Additionally, the conversion of your benefits to other currencies is subject to exchange restrictions applicable at the time when the benefits are paid. You have the sole responsibility to decide if you want to convert your benefits to other currencies.

What are the risks of surrendering your plan or withdrawing money from your plan?
The liquidity of an insurance policy is limited. You are strongly advised to reserve adequate liquid assets for emergencies. For any surrender/withdrawal especially at the early stage upon policy inception, you may receive an amount considerably less than the premiums you paid.

How may inflation affect the value of your plan?
We expect the cost of living to rise in the future because of inflation. That means the insurance you take out today will not have the same buying power in the future, even if the plan offers increasing benefit intended to offset inflation.

Important information

Important notes for Policy Reverse Mortgage Programme ("PRMP")
Please note that this product is an eligible life insurance plan under PRMP, but it does not necessarily mean that your PRMP application will be approved. The eligibility of this product under the PRMP is based on the features of the product. Therefore, you and your life insurance policy are still required to meet all the eligibility requirements under PRMP before you apply for the policy reverse mortgage loan.

The general information provided on PRMP is for reference only, and you should not make any decisions based on such information alone. You should always seek for advice from professional bodies if you have any doubts. Please note that the information provided is subject to change including the eligibility criteria for PRMP. We do not take any responsibility to inform you about any changes and how they may affect you. The Policy Reverse Mortgage Programme is operated by HKMC Insurance Limited, a wholly-owned subsidiary of The Hong Kong Mortgage Corporation Limited. For further information, please refer to The Hong Kong Mortgage Corporation Limited website: www.hkmc.com.hk.

Suicide clause
If the life assured commits suicide regardless of sane or insane within 1 year from the effective date of the policy or from the date of any reinstatement, whichever is later, we will limit the death benefit to a refund of the premiums paid without interest. We will deduct any amounts we have already paid and any amounts you owe us under the policy.

Cancellation right
A customer who has bought the life insurance plans has a right to cancel the policy within the cooling-off period and obtain a refund of any premium(s) and levy(ies) paid less any withdrawals. Provided that no claim has been made, the customer may cancel the policy by giving written notice to us within 21 calendar days immediately following either the day of delivery of (1) the policy or (2) the notice (informing the availability of the policy and expiry date of the cooling-off period) to the customer or his/her nominated representative, whichever is earlier. Such notice must be signed by the customer and received directly by Prudential Hong Kong Limited at 8/F, Prudential Tower, The Gateway, Harbour City, 21 Canton Road, Tsim Sha Tsui, Kowloon, Hong Kong within the cooling-off period.

The premium and levy will be refunded in the currency of premium and levy payment at the time of application for this policy. If the currency of premium and levy payment is not the same as the plan currency, the refundable premium and levy amount in plan currency under this policy will be converted to the currency of premium and levy payment at the prevailing currency exchange rate as determined by us in our absolute discretion from time to time upon payment. After the cooling-off period expires, if a customer cancels the policy before the end of benefit term, the actual cash value (if applicable) may be substantially less than the total amount of premiums paid.

Automatic Exchange of Financial Account Information
Over 100 countries and jurisdictions around the world have committed to adopt new rules for automatic exchange of financial account information ("AEOI"). Under the new rules, financial institutions are required to identify account holders who are foreign tax residents and report certain information regarding their investment income and account balance to the local tax authority where the financial institution operates. When countries or jurisdictions start exchanging information on an automatic basis, the relevant local tax authority where the financial account is maintained will then provide this information to the tax authority of the account holder's country of tax residence. This information exchange will be conducted on a regular, annual basis.

Hong Kong has adopted the new rules into its legislation (please see the Inland Revenue (Amendment) (No. 3) Ordinance 2016 ("the Amendment Ordinance") which came into effect on 30 June 2016). Therefore, the above requirements will be applicable to financial institutions in Hong Kong including Prudential. Under these rules, certain policyholders of Prudential are considered as "account holders". Financial institutions in Hong Kong including Prudential are required to implement due diligence procedures to identify account holders (i.e. policyholders in case where the financial institution is an insurance company) and in the case where the account holder is an entity, its "controlling persons", who are foreign tax residents, and report this information to the Inland Revenue Department ("IRD") if required. The IRD may transfer this information to the country of tax residence of such account holders.

In order to comply with the law, Prudential may require you, the account holder, to:

(1) complete and provide us with a self-certification form with information regarding your tax residence status, your tax identification number in your country or countries of tax residence, your date of birth, and in the case where the policyholder is an entity (for example, a trust or a company), the classification of the entity that holds the policy and information regarding "controlling persons" of such entities;
(2) provide us all required information and documentation for complying with Prudential's due diligence procedures; and
(3) advise us of any change in circumstances which affect your tax residence status and provide us with a suitably updated self-certification form within 30 days of such change in circumstances.

According to the due diligence procedures set out in the Amendment Ordinance, self-certifications are required from account holders for all new accounts. As for pre-existing accounts, if a reporting financial institution has doubts about the tax residence of an account holder, it may require a self-certification from the account holder to verify its tax residence.

Prudential cannot provide you with any tax or legal advice. If you have doubts about your tax residence you should seek professional advice. You should seek independent professional advice on the impact that AEOI may have on you or your policy.

An account holder who knowingly or recklessly provides a statement that is misleading, false or incorrect in a material particular in making a self-certification to a reporting financial institution is liable on conviction to a fine at level 3 (HKD 10,000).

For further information on the implementation of the Common Reporting Standard and AEOI in Hong Kong, please refer to the IRD website: www.ird.gov.hk/eng/tax/dta_aeoi.htm.
