In-depth protection against cancer

Non-surgical cancer treatments

Treating cancer effectively often needs more than just surgery, and the cost of supporting treatments can quickly add up. That's why we cover non-surgical cancer treatments too, including:

- Chemotherapy
- CyberKnife
- Gamma Knife
- Hormonal therapy
- Immunotherapy
- Proton therapy
- Radiotherapy
- Targeted therapy

Genetic testing prior to targeted therapy

Matching your treatments to the cancer and your own genetic make-up gives you a better chance of beating the disease. But the genetic testing that enables doctors to do this can be costly. We cover the expenses incurred for **genetic tests prescribed for the use of specific targeted therapy drugs** for the life assured.

Personalised cancer drugs

Cancer treatment is dynamic; there are constant breakthroughs with new drugs – and doctors can switch to more advanced drugs when the first line of treatment has failed. We even cover **cancer drugs registered and launched overseas though not in Hong Kong; but recommended by your doctor** and used solely for the purpose of cancer treatment received in Hong Kong.

Lifetime guaranteed renewal^{4, iii}

With **PRU**myhealth prestige medical plan, we assure protection for life. Furthermore, regardless of any change in your health conditions and claims history, you have a guaranteed right to renew your plan for life, subject to the continual availability of the plan, terms and conditions applicable and the prevailing premium rates at the time of renewal. If we no longer offer **PRU**myhealth prestige medical plan to all policyholders already enrolled, we will endeavour to enrol the life assured in another available medical plan.

An array of extra benefits and services

We take care of your well-being by extending coverage to include a variety of benefits and services, giving you an all-round protection in your moment of need:

- Dialysis on both inpatient and outpatient basis
- Surgical fees of organ transplant on the person covered by the plan (the “life assured”) as recipient
- Pregnancy complications⁹ coverage
- Hospice care
- 24-hour Worldwide Emergency Assistance Services⁸

Flexibility to choose from a range of annual deductibles⁵, coverage area and Designated Supplementary Benefits

Whether you are looking for full cost cover or only significant medical cost cover, we offer you the freedom to choose from different levels of annual deductibles⁵ upon application, or at each policy anniversary. This can help you manage the cost of your plan and still receive protection against the unknown. To give you additional flexibility, you can reduce your existing annual deductible without having to undergo any medical underwriting once per lifetime at the policy anniversary that immediately follows the 55th, 60th or 65th birthday of the life assured. This allows you to gear up your protection in preparation for your retirement.

While this plan offers excellent worldwide coverage, we understand you may not intend to seek medical care in the USA; thus, we also offer you an alternative option – worldwide coverage excluding the USA. This way, without reducing your benefits items and limits, we can lower your premium.

Subject to relevant underwriting eligibility requirements, you may attach the Designated Supplementary Benefits including Outpatient Benefit, Maternity Benefit¹ and Dental Benefit² to the plan to suit your personal needs.

We reserve the right to review the premium rates on each policy anniversary and adjust the premium rates accordingly across a particular risk class. Also, we have the right to revise the terms and conditions and/or the Benefit Schedule of the plan on each policy anniversary to reflect any past or foreseeable changes in medical practice and claims experience, and will apply the respective changes to all plans under the **PRU**myhealth prestige medical plan, Dental Benefit, Maternity Benefit and Outpatient Benefit (to the extent applicable). The confinement/stay, medical treatment and/or service should also conform to the standards of generally accepted medical practice and not just for the convenience of the life assured, his/her relatives or the registered doctor. In case of hospital confinement, the medical treatment and/or service should be performed on the basis of the medical symptoms or conditions of the life assured that cannot be safely provided without hospital confinement.
- 8 Services including Cashless Arrangement Service for Hospitalisation and 24-hour Worldwide Emergency Assistance Services are provided by third party service provider(s) we have designated. We may change both the scope of services and the service provider(s) from time to time at our sole discretion without prior notice. We may cease and/or suspend the services at our sole discretion. Key risks

How may our credit risk affect your policy?

The guaranteed cash value (if applicable) and insurance benefit of your plan are subject to our credit risk. If we become insolvent, you may lose the value of your policy and its coverage.

How may currency exchange rate risk affect your benefits?

Foreign currency exchange rates may fluctuate. As a result, you may incur a substantial loss when you choose to convert your benefits to other currencies. Additionally, the conversion of your benefits to other currencies is subject to exchange restrictions applicable at the time when the benefits are paid. You have the sole responsibility to decide if you want to convert your benefits to other currencies.

How may inflation affect the value of your plan?

We expect the cost of living to rise in the future because of inflation. That means the insurance you take out today will not have the same buying power in the future, even if the plan offers increasing benefit intended to offset inflation.

What happens if you do not pay your premiums?

You should only apply for this product if you intend to pay all of its premiums. If you miss any of your premium payments, we may terminate your policy and you would lose the policy's coverage.

Why may we adjust your premiums?

We have the right to review and adjust the plan's premium rates for particular risk classes on each policy anniversary, but not for any individual customer.

We may adjust premium rates because of several factors, such as our claims and persistency experience, medical price inflation, projected future medical costs and any applicable changes in benefit.

Why may we change your benefits?

We have the right to revise the Benefit Schedule and the terms and conditions under this plan on each renewal by giving you 30 days' notice in writing. This is to account for any known or foreseeable changes in medical practices and claims experiences. We will apply the revisions to all policies under the plan. The premium will be adjusted accordingly based on the rate as determined by us.

Important information

Suicide clause

If the life assured commits suicide regardless of sane or insane within 1 year from the effective date of the policy or from the date of any reinstatement, whichever is later, the death benefit will be limited to a refund of the premiums paid without interest subject to the deduction of any amounts we have already paid and any indebtedness you owe us under the policy.

Cancellation right

A customer who has bought the life insurance plans has a right to cancel the policy within the cooling-off period and obtain a refund of any premium(s) and levy(ies) paid less any withdrawals. Provided that no claim has been made, the customer may cancel the policy by giving written notice to us within 21 calendar days immediately following either the day of delivery of (1) the policy or (2) the notice (informing the availability of the policy and expiry date of the cooling-off period) to the customer or his/her nominated representative, whichever is earlier. Such notice must be signed by the customer and received directly by Prudential Hong Kong Limited at 8/F, Prudential Tower, The Gateway, Harbour City, 21 Canton Road, Tsim Sha Tsui, Kowloon, Hong Kong within the cooling-off period.

The premium and levy will be refunded in the currency of premium and levy payment at the time of application for this policy. If the currency of premium and levy payment is not the same as the plan currency, the refundable premium and levy amount in plan currency under this policy will be converted to the currency of premium and levy payment at the prevailing currency exchange rate as determined by us in our absolute discretion from time to time upon payment. After the cooling-off period expires, if a customer cancels the policy before the end of benefit term, the actual cash value (if applicable) may be substantially less than the total amount of premiums paid.
