Affordable, in-depth critical illness cover for people just starting out, with protection against 74 disease conditions.
When you are starting out, having the peace of mind from knowing your finances are protected from critical illness is invaluable. **PRUHealth Critical Illness First Protect** provides whole-life, lump-sum cover against the financial impact of 74 disease conditions. With affordable premiums over a limited period, the plan also safeguards you with in-depth cover; a maximum of 75% extra protection for up to the first 15 years against major disease conditions or death.

**Plan highlights**

- **Protects your finances against 74 disease conditions**
- **Covers early stage major disease conditions, including pre-cancerous conditions**
- **Premium waiver of 12 months after an early stage major disease claim**
- **Maximum 75% extra protection for a major disease claim or death claim for up to the first 15 years, depending on the age when we issue the policy**
- **Combat inflation with our Benefit Protector Option**
- **Protection and long-term savings in one plan**
The benefits

Protects your finances against 74 disease conditions
We offer essential protection against 74 disease conditions, including 56 Major Disease Conditions and 18 Early Stage Major Disease Conditions. The plan covers most common disease conditions, including Cancer, Heart Attack or Stroke.

If the person covered by the policy (the “life assured”) is diagnosed with one of the covered Major Disease Conditions, we will pay a lump sum of up to 100% of the current sum assured as a Major Disease Benefit.

If the life assured unfortunately passes away, we will pay this as a Death Benefit to help their beneficiary.

You can find the full list of covered disease conditions in the “List of disease conditions the plan covers” section below.

Lump-sum cover and a 12-month premium waiver for early stage major disease conditions
Covers early stage major disease conditions, including pre-cancerous conditions
We will pay up to 20% or 25% of the current sum assured of your PRUHealth Critical Illness First Protect for Early Stage Major Disease Conditions, depending on the condition with which the life assured is diagnosed.

You can claim the Early Stage Major Disease Benefit 3 times in total. Within these 3 claims, you can claim for Carcinoma-in-situ (a pre-cancerous condition) and Coronary Angioplasty a maximum of twice each, and each claim can pay up to 25% of your current sum assured. You can also claim up to 25% of your current sum assured once for Early Thyroid or Prostate Cancer. Finally, you can claim once for the other 15 covered Early Stage Major Disease Conditions, up to 20% of your current sum assured.

After any Early Stage Major Disease Benefit claim, we will deduct the amount you have claimed when we pay the Major Disease Benefit or Death Benefit.

Premium waiver of 12 months after an early stage major disease claim
To ease the burden on your finances, once we have paid the Early Stage Major Disease Benefit, we waive your PRUHealth Critical Illness First Protect premium payments falling due in the next 12 months as an Early Stage Critical Illness Premium Waiver Benefit.
You can find more about these benefits in the “Benefit schedule” and “More about PRU Health Critical Illness First Protect” sections below.

Δ Carcinoma-in-situ covers all organs except for Carcinoma-in-situ of the skin (including melanoma-in-situ).

~ Early Thyroid or Prostate Cancer refers to the presence of one of the following malignant conditions: (a) thyroid tumour classified as T1N0M0 according to the TNM classification system; or (b) prostate tumour classified as T1a or T1b according to the TNM classification system.

° Cancer does not include (a) thyroid tumour classified as T1N0M0 or a lower stage according to the TNM classification system; (b) prostate tumour classified as T1a or T1b or a lower stage according to the TNM classification system; (c) chronic lymphocytic leukaemia less than RAI stage III; (d) skin cancer other than malignant melanoma; (e) tumour in the presence of any HIV; (f) Cervical Intra-epithelial Neoplasia (CIN I, CIN II, or CIN III) or Cervical Squamous Intra-epithelial Lesion; and (g) tumour classified as pre-malignant, non-invasive, or Carcinoma-in-situ, or as having either borderline malignancy or low malignant potential.
How does the plan work for you?†

At age 30 (ANB), Ms. Chow enrolled in a 20-year payment term PRUHealth Critical Illness First Protect as the life assured with a current sum assured of USD 100,000. In her first 15 policy years, she is entitled to Critical Illness First Enhancer, which gives her extra protection of USD 75,000, i.e. 75% of her USD 100,000 current sum assured. In other words, with an annual premium of USD 2,003, she is able to get a total cover of USD 175,000.

Extra 75% protection from Critical Illness First Enhancer for the first 15 years

Entitled to
Early Stage Critical Illness
Premium Waiver Benefit

We waive her premium for the next year

<td>We pay USD 25,000 (25% of current sum assured)</td>
<td>We pay USD 75,000 (100% of current sum assured less total claimed amount for Early Stage Major Disease Benefit) + face value of Terminal Bonus (if any)</td>
<td>We pay USD 75,000</td>
</tr>
</tbody>
</table>

Total benefit payout = USD 175,000
(that is 971% of the total premiums paid) + face value of Terminal Bonus (if any)

† We assume in the above example that Ms. Chow is a non-smoker and the premium for each year is USD 2,003. She has paid her premium between ages 30 to 39 (ANB). Except age 37 (ANB) where we waived her premium, she has paid a total of USD 18,027 through the 10 years of her policy. We also assume that the definitions and claims requirements of the benefits are fulfilled, no policy loans or policy changes have been made and no Benefit Protector Option has been exercised.
**Key exclusions**

We will not pay any Major Disease Benefit or Early Stage Major Disease Benefit of PRUHealth Critical Illness First Protect and Critical Illness First Enhancer if:

(I) the disease condition (including Major Disease Condition or Early Stage Major Disease Condition) existed before the effective date of this plan, or before the effective date of reinstatement, whichever is later; or

(II) the life assured suffers from any pre-existing condition, or shows any signs or symptoms, which may be the cause or triggering condition of a disease condition before the effective date of this plan, or before the effective date of reinstatement, whichever is later; or

(III) the life assured is diagnosed by a registered specialist with a disease condition, or has shown signs or symptoms of any illness, disease or physical condition which may be the cause or triggering condition of a disease condition within 90 days from the effective date of this plan or from the effective date of reinstatement, whichever is later. This exclusion does not apply if the disease condition is caused by an accident and the life assured is diagnosed as having the disease condition within 90 days of the accident; or

(IV) the disease condition is a direct or indirect result of:
   a. the life assured’s attempted suicide or self-inflicted injuries while sane or insane; or
   b. Acquired Immune Deficiency Syndrome (AIDS), AIDS-related complex or infection by Human Immunodeficiency Virus (HIV) except for AIDS due to Blood Transfusion or Occupationally Acquired HIV; or
   c. narcotics used by the life assured unless taken as prescribed by a registered doctor, or the life assured’s abuse of drugs and/or alcohol.

In addition, we will not pay the Major Disease Benefit for the life assured’s Total and Permanent Disability as a direct or indirect result of:

(i) war, hostilities (whether war is declared or not), rebellion, insurrection, riot, or civil commotion; or
(ii) travelling or flights in any vehicle or device for aerial navigation other than as a fare-paying passenger on a scheduled public air service.

There are more details on the plan’s exclusions in the policy provisions.

• The life assured must be at least 15 days old when the proposal document is signed.

Premium structure
We will determine the premium based on the risk class (including but not limited to age, gender and smoking status) of the life assured as well as the premium term and policy currency selected. We have the right to review and adjust the premium rates for particular risk classes on each policy anniversary. The premium will not be adjusted unless we notify you prior to the anniversary of your policy.

Current sum assured
• The current sum assured of PRUHealth Critical Illness First Protect (excluding Critical Illness First Enhancer) reflects:
  (i) any increments of the sum assured from the Benefit Protector Option; and/or
  (ii) any reductions of the sum assured you make to your plan.
• The current sum assured of Critical Illness First Enhancer reflects any reductions of the sum assured you make to your plan.

Critical Illness First Enhancer
• If you choose the Benefit Protector Option, the current sum assured of Critical Illness First Enhancer will not include the increased coverage this benefit offers.
• If you reduce your sum assured of PRUHealth Critical Illness First Protect, we will also reduce your Critical Illness First Enhancer’s coverage in proportion.
• Critical Illness First Enhancer is not eligible for the Terminal Bonus and guaranteed cash value.
• We will stop your Critical Illness First Enhancer when you terminate your PRUHealth Critical Illness First Protect, or when the benefit term of your Critical Illness First Enhancer has ended or once we have paid the Major Disease Benefit or Death Benefit.
• You can convert Critical Illness First Enhancer to a new life insurance plan with a cash value (as specified by us at the time of conversion) for the life assured at a premium rate determined by us, provided that:
  - no claims have been made under PRUHealth Critical Illness First Protect;
  - the new sum assured is the same or less than the current sum assured of Critical Illness First Enhancer;
  - the new policy will be issued with the same special terms and conditions as your existing PRUHealth Critical Illness First Protect;
  - you apply for the conversion within 1 month before or after Critical Illness First Enhancer matures; and
  - you have an insurable interest in the life of the life assured (if you are not the life assured) named under the new policy and meet other specified conditions including the minimum sum assured and issue age requirement of the new policy.
Terminal Bonus

- The Terminal Bonus is a one-off non-guaranteed bonus.
- We normally declare bonus annually according to our declared bonus rates. We may change the bonus rates from time to time. The bonus is not guaranteed. We will declare bonus for your plan from its 5th anniversary.
- The declared bonus may rise and fall and does not accumulate within the policy or form a permanent addition to the policy’s value.
- The declared bonus has a face value which we will pay out in the event of death of the life assured or if you make a Major Disease Benefit claim.
- The bonus also has a non-guaranteed cash value which we determine by a variable cash value discount factor. In the event of policy surrender, the non-guaranteed cash value – not the face value – of the bonus shall be paid out.

Factors affecting the Terminal Bonus

- The bonus we pay is not guaranteed and is subject to review and adjustment at our discretion. Factors that may affect it include (but not limited to):
  
  i. Investment performance factors – your plan’s performance will be affected by the return on its underlying investment portfolio. This could be driven by:
     - interest earnings from fixed-income securities and dividend from equity-type investments (if any);
     - capital gains and losses from investment assets;
     - counterparty default risk of fixed-income securities (such as bonds);
     - investment outlook; and
     - external market risk factors such as recessions and changes in monetary policies and foreign exchange rates.
  
  ii. Claims factors – Our historical claims experience on death and/or other covered benefits, and projected future costs of providing death benefit and/or other covered benefits.
  
  iii. Expense factors – These include direct expenses associated with issuing and maintaining your policy, such as commissions, overrides, underwriting and policy administration expenses. They may also include indirect expenses (such as general overheads) allocated to your policy.
  
  iv. Persistency factors – Policy persistency and any partial surrenders of a group of policies may impact the bonus we pay to the continuing policies.

- The actual future amounts of benefits and/or returns may be higher or lower than the values currently presented in the marketing materials. Our website at www.prudential.com.hk/bonushistory_SHPAR_en explains the bonus history.

Benefit Protector Option

- You can only take out the Benefit Protector Option for standard rate policies of PRU Health Critical Illness First Protect with a premium term of 15, 20, 25 or 30 years. It is also subject to our administration guidelines.
- By paying extra premiums, you can automatically increase your protection by 5% of the initial sum assured every year, up to 200% of the initial sum assured.
- We will calculate the additional premiums you need to pay for increasing your sum assured of PRU Health Critical Illness First Protect each year based on the attained age, gender and latest smoking status of the life assured and the remaining premium term.
- Any additional sum assured derived from the Benefit Protector Option will not apply when we calculate the current sum assured of Critical Illness First Enhancer.
- We will stop increasing your sum assured when the first of these happens:
  - you decline 2 consecutive increases in your sum assured; or
  - on the policy anniversary immediately following the life assured’s age 61 (ANB); or
  - your PRU Health Critical Illness First Protect’s premium term has less than 10 years to run; or
  - the current sum assured has reached the maximum limit we set; or
  - you reduce your sum assured; or
  - there is a premium waiver benefit claim, total and permanent disability claim or a claim for any kind of major disease benefit (including but not limited to Early Stage Major Disease Benefit and Major Disease Benefit) under all policies the life assured has with us; or
  - your PRU Health Critical Illness First Protect terminates.
Surrender Value
When you surrender your policy, we will pay a Surrender Value under PRUHealth Critical Illness First Protect equal to:
• guaranteed cash value (from the 3rd policy anniversary);
• plus cash value of Terminal Bonus (from the 5th policy anniversary, if any);
• less total claimed amount for Early Stage Major Disease Benefit made under PRUHealth Critical Illness First Protect (if applicable);
• less any outstanding loans and interest.

Death Benefit
If the life assured passes away, we will pay a Death Benefit equal to:
• 100% of current sum assured of PRUHealth Critical Illness First Protect;
• plus face value of Terminal Bonus of PRUHealth Critical Illness First Protect (from the 5th policy anniversary, if any);
• plus 100% of current sum assured of Critical Illness First Enhancer (if applicable);
• less total claimed amount for Early Stage Major Disease Benefit made under PRUHealth Critical Illness First Protect (if applicable);
• less any outstanding loans and interest.

Second claim conditions for Carcinoma-in-situ and Coronary Angioplasty
• To make a second claim for Carcinoma-in-situ, the second claim must be for a Carcinoma-in-situ in a different organ from the first successful claim.

Paired organs (breast, fallopian tube, lung, ovary and testicle) are considered to be the same organ for this Carcinoma-in-situ claim.

• To make a second claim for Coronary Angioplasty, the treatment must be performed on a location of stenosis or obstruction in a major coronary artery where no stenosis greater than 60% was identified in the coronary angiogram relating to the first claim.

Termination of this plan
We will terminate this plan when the first of these happens:
• death of the life assured; or
• once you surrender the policy; or
• if you fail to pay your premium within the grace period of 1 calendar month from its due date and the net cash value of the policy is insufficient to exercise the automatic premium loan; or
• once we pay (or once it is confirmed that we will pay) the Major Disease Benefit; or
• once outstanding loans and interest are more than 90% of the guaranteed cash value of your plan minus the total claimed amount for Early Stage Major Disease Benefit.
Investment strategy

We aim to protect the rights and manage the reasonable expectations of all Shareholder-backed Participating policyholders. Our investment objective is to maximise policyholders' returns with an acceptable level of risk. We do this through a broad mix of investments.

The Shareholder-backed Participating Fund invests in various types of assets, such as equity-type securities and fixed-income securities to diversify investment risks. The equity-type securities aim to provide policyholders with the potential for a higher long-term return.

We adopt an actively managed investment strategy, which we adjust in response to changing market conditions. Under normal circumstances, our experts allocate a smaller proportion of higher-risk assets, such as equities, to insurance plans with a higher guarantee and a larger proportion of higher-risk assets to insurance plans with lower guarantees. In doing so, we aim to match the level of risk to the risk profiles of our products. We may utilise derivatives to manage risks or improve returns. We may also make use of securities-lending to enhance returns.

The following paragraphs explain the current investment mix according to our investment strategy. Should there be any material changes in the investment strategy, we will inform you afterwards and explain the reasons behind and their implications.

The investment mix of your plan

The current long-term target asset allocation is as follows:

<table>
<thead>
<tr>
<th>Asset type</th>
<th>Allocation (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>HKD-/USD-denominated</td>
<td></td>
</tr>
<tr>
<td>Fixed-income securities</td>
<td>70%</td>
</tr>
<tr>
<td>Equity-type securities</td>
<td>30%</td>
</tr>
</tbody>
</table>

Our guaranteed liabilities to policyholders are mainly supported by fixed-income securities.

We primarily invest in fixed-income securities rated at least investment-grade. A small portion of high-yield and emerging-market bonds may be included to improve yield and diversification.

For equity-type securities, most of the investments are in stocks listed on major international exchanges.

Our currency strategy is to broadly match the fixed-income securities to the underlying policy denomination, while we allow more flexibility for equity-type securities for diversification. Subject to market availability and opportunity, we may invest fixed-income securities in a currency other than the underlying policy denomination and currency hedging will be used to reduce the currency risk.

We invest globally to achieve diversification benefits and we currently have a higher relative allocation in the US and Asia which will be reviewed regularly.

We actively manage and adjust actual exposure in response to changing market conditions and opportunities. Given asset values may vary due to changes in the economic environment and investment performance, the actual allocation may vary from the target allocation above. On a regular basis, we review the investment mix to be in line with our investment objectives and risk appetite. For more information on the investment mix, please refer to www.prudential.com.hk/investmentmix_en.
Key risks

How our credit risk may affect your policy?
The guaranteed cash value (if applicable) and insurance benefit of your plan are subject to our credit risk. If we become insolvent, you may lose the value of your policy and its coverage.

How currency exchange rate risk affects your return?
Foreign currency exchange rates may fluctuate. As a result, you may incur a substantial loss when you choose to convert your benefits to other currencies. Additionally, the conversion of your benefits to other currencies is subject to exchange restrictions applicable at the time when the benefits are paid. You have the sole responsibility to decide if you want to convert your benefits to other currencies.

What are the risks of surrendering your plan or withdrawing money from it?
The liquidity of an insurance policy is limited. You are strongly advised to reserve adequate liquid assets for emergencies. For any surrender or withdrawal, especially at the early stage upon policy inception, you may receive an amount considerably less than the premiums you paid.

How inflation affects the value of your plan?
We expect the cost of living to rise in the future because of inflation. That means the insurance you take out today will not have the same buying power in the future, even if the plan offers increasing benefits intended to offset inflation.

What happens if you do not pay your premiums?
You should only apply for this product if you intend to pay all its premiums. If you miss any of your premium payments, we will automatically settle your outstanding premiums or premiums and levy(ies) by an automatic premium loan, with interest charged at a rate we determine. In the case the loan amount (plus accrued interest) exceeds the amount we allow for loan under the policy, we may terminate your policy and you may receive an amount considerably less than the premiums you paid, as well as losing the policy’s coverage.

Why may we adjust your premiums?
We have the right to review and adjust the plan’s premium rates for particular risk classes on each policy anniversary, but not for any individual customer.

We may adjust premium rates because of several factors, such as our claims, investment and persistency experience.
Important information

Suicide clause
If the life assured commits suicide regardless of sane or insane within 1 year from the effective date of the policy or from the date of any reinstatement, whichever is later, the death benefit will be limited to a refund of the premiums paid without interest subject to the deduction of any amounts we have already paid and any indebtedness you owe us under the policy.

Cancellation right
A customer who has bought the life insurance plans has a right to cancel the policy within the cooling-off period and obtain a refund of any premium(s) and levy(ies) paid less any withdrawals. Provided that no claim has been made, the customer may cancel the policy by giving written notice to us within 21 days after: (1) the delivery of the policy or (2) the issuance of a notice (informing the availability of the policy and expiry date of the cooling-off period) to the customer/his/her representative, whichever is earlier. The premium and levy will be refunded in the currency of premium and levy payment at the time of application for this policy. If the currency of premium and levy payment is not the same as the plan currency, the refundable premium and levy amount in plan currency under this policy will be converted to the currency of premium and levy payment at the prevailing currency exchange rate as determined by us in our absolute discretion from time to time upon payment. After the cooling-off period expires, if a customer cancels the policy before the end of benefit term, the actual cash value (if applicable) may be substantially less than the total amount of premiums paid.

Automatic Exchange of Financial Account Information
Over 100 countries and jurisdictions around the world have committed to adopt new rules for automatic exchange of financial account information (“AEOI”). Under the new rules, financial institutions are required to identify account holders who are foreign tax residents and report certain information regarding their investment income and account balance to the local tax authority where the financial institution operates. When countries or jurisdictions start exchanging information on an automatic basis, the relevant local tax authority where the financial account is maintained will then provide this information to the tax authority of the account holder’s country of tax residence. This information exchange will be conducted on a regular, annual basis.

Hong Kong has adopted the new rules into its legislation (please see the Inland Revenue (Amendment) (No. 3) Ordinance 2016 (“the Amendment Ordinance”) which came into effect on 30 June 2016). Therefore, the above requirements will be applicable to financial institutions in Hong Kong including Prudential. Under these rules, certain policyholders of Prudential are considered as “account holders.” Financial institutions in Hong Kong including Prudential are required to implement due diligence procedures to identify account holders (i.e. policyholders in case where the financial institution is an insurance company) and in the case where the account holder is an entity, its “controlling persons,” who are foreign tax residents, and report this information to the Inland Revenue Department (“IRD”) if required. The IRD may transfer this information to the country of tax residence of such account holders.

In order to comply with the law, Prudential may require you, the account holder, to:
(1) complete and provide us with a self-certification form with information regarding your tax residence status, your tax identification number in your country or countries of tax residence, your date of birth, and in the case where the policyholder is an entity (for example, a trust or a company), the classification of the entity that holds the policy and information regarding “controlling persons” of such entities;
(2) provide us all required information and documentation for complying with Prudential’s due diligence procedures; and
(3) advise us of any change in circumstances which affect your tax residence status and provide us with a suitably updated self-certification form within 30 days of such change in circumstances.

According to the due diligence procedures set out in the Amendment Ordinance, self-certifications are required from account holders for all new accounts. As for pre-existing accounts, if a reporting financial institution has doubts about the tax residence of an account holder, it may require a self-certification from the account holder to verify its tax residence.
Prudential cannot provide you with any tax or legal advice. If you have doubts about your tax residence you should seek professional advice. You should seek independent professional advice on the impact that AEOI may have on you or your policy.

An account holder who knowingly or recklessly provides a statement that is misleading, false or incorrect in a material particular in making a self-certification to a reporting financial institution is liable on conviction to a fine at level 3 (HKD 10,000).

For further information on the implementation of the Common Reporting Standard and AEOI in Hong Kong, please refer to the IRD website: www.ird.gov.hk/eng/tax/dta_aeoi.htm.
**Notes**

*PRU* Health Critical Illness First Protect is underwritten by Prudential Hong Kong Limited (“Prudential”). This brochure is for reference only. It does not represent a contract between Prudential and anyone else. You should read carefully the risk disclosures and key exclusions (if any) contained in this brochure. For further details and the terms and conditions of this plan, please ask Prudential for a sample of the policy document.

Prudential has the right to accept or decline any application based on the information provided by the policyholder and/or life assured in the application.

Please cross your cheque and make it payable to “Prudential Hong Kong Limited”.

This brochure is for distribution in Hong Kong only. It is not an offer to sell or solicitation to buy or provide any insurance product outside Hong Kong. Prudential does not offer or sell any insurance product in any jurisdictions outside Hong Kong where such offering or sale of the insurance product is illegal under the laws of such jurisdictions.
