* The value of policy account will be calculated as at the date we receive the death claim of the life assured. Any applicable charges which have already been incurred but are outstanding at the time of policy termination upon death of the life assured will be first deducted from the policy account before we determine the policy account value as set out in the above item (1).
This investment-linked assurance scheme ("ILAS policy") is a long-term investment-cum-life insurance product. It is only suitable for investors who:
- understand the principal will be at risk.
- have both investment and estate planning objectives as it is a packaged product that includes both investment and insurance elements with death benefits payable to third party beneficiaries.

This ILAS policy is not suitable for investors with short- or medium-term liquidity needs.

Fees and Charges
11.7% of your single premium, after taking into account all applicable non-discretionary bonuses, will be paid to Prudential to cover all the fees and charges at the ILAS policy level, of which 0.5% is the cost of life protection, and this will reduce the amount available for investment.

Please note that the above figures are calculated based on the following assumptions: (a) the life assured is a non-smoking 40 year-old (age next birthday) male; (b) the payment of single premium of USD 125,000 (equivalent to HKD 1,000,000 at an exchange rate of USD 1 to HKD 8); (c) you hold your ILAS policy for 20 years; (d) an assumed rate of return of 3% per annum throughout 20 years; and (e) there is no early withdrawal/termination of your ILAS policy.

You must understand that these ILAS level charges are on top of, and in addition to, the reference funds level charges. The above figures do not take into account any early surrender/withdrawal charges.

The above percentage of your single premium for covering the total fees and charges is calculated based on the assumptions above for illustration purposes. The actual percentage may change depending on individual circumstances of each case, and will be higher if the premium amount is lower.

Long-term Features
Early surrender/withdrawal charges:
(a) There will be a Redemption Charge of up to 8% of the value of the policy account in case of policy surrender or 8% of the partial withdrawal amount in case of partial withdrawal, within the first 5 policy years. You may also lose your entitlement to the Loyalty Bonus.

Loyalty Bonus:
(b) You will be entitled to a Loyalty Bonus of up to 1.5% of the value of policy account on each policy anniversary starting from the 6th policy anniversary as long as your ILAS policy is still in force by the time of payment and the value of the policy account is maintained at USD 8,000 or above on the relevant policy anniversary.

Intermediaries' remuneration
Although you may pay nothing directly to the intermediary who sells/distributes this ILAS policy to you, your intermediary will receive remuneration which, in effect, will be borne out of the charges you pay. Your intermediary should disclose to you in writing at the point-of-sale information about intermediary remuneration. The amount of remuneration actually receivable by your intermediary may vary from year to year and may be higher in the early policy years. You should ask your intermediary before taking up your ILAS policy to know more about the remuneration that your intermediary will receive in respect of your ILAS policy. If you ask, your intermediary should disclose the requested information to you.
WHAT IS THIS PRODUCT AND HOW DOES IT WORK?

• PRUlink single premium investment plan (the “Plan” or your “Plan”) is an investment-linked assurance scheme. It is a life insurance policy issued by Prudential. It is not a fund authorised by the Securities and Futures Commission (“SFC”) pursuant to the Code on Unit Trusts and Mutual Funds (“UT Code”).

• Your Plan’s policy value will be calculated by Prudential based on the performance of the reference funds of your selected investment choices from time to time and the ongoing fees and charges which will continue to be deducted from the policy value of your Plan.

• Note, however, that all premiums you pay towards your Plan, and any investments made by Prudential in the reference funds of the investment choices you selected, will become and remain the assets of Prudential. You do not have any rights or ownership over any of these assets. Your recourse under the Plan is against Prudential only.

• Due to the various fees and charges levied by Prudential on your Plan, the return on your Plan as a whole may be lower than the return of the reference funds of the investment choices you selected. Please refer to “What are the fees and charges” section on page 5 to 6 of this statement for details of the fees and charges payable by you.

• Reference funds (linked to the investment choices) available for selection are the funds listed in the Summary Information for Investment Choices. These funds are authorised by the SFC pursuant to the UT Code.

• Although your Plan is a life insurance policy, because your death benefit is linked to the performance of the reference funds of the investment choices you selected from time to time, your death benefit is subject to investment risks and market fluctuations. The death benefit payable may not be sufficient for your individual needs.

• More importantly, you should be aware of the following regarding your death benefit and the cost of insurance/insurance charges (“Assurance Charge”):
  - Part of the fees and charges you pay that will be deducted from the value of your Plan will be used to cover the Assurance Charge for the life coverage.
  - The Assurance Charge will reduce the amount that may be applied towards investment in the investment choices you selected.
  - The Assurance Charge may increase significantly during the term of your Plan due to factors such as age and investment losses, etc. This may result in significant or even total loss of your premiums paid.
  - If the value of your Plan becomes insufficient to cover all the ongoing fees and charges, including the Assurance Charge, your Plan may be terminated early and you could lose all your premiums paid and benefits.
  - You should consult your intermediary for details, such as how the charges may increase and could impact the value of your Plan.

• Please refer to the section “Other features” for further details of this Plan.

WHAT ARE THE KEY RISKS?

Investment involves risks. Please refer to the Principal Brochure for details including the risk factors.

• Credit and insolvency risks – This product is an insurance policy issued by Prudential. Your investments are subject to the credit risks of Prudential.

• The investment choices available under the Plan can have very different features and risk profiles. Some may even be of high risk. Please read the Principal Brochure and the offering documents of the reference funds involved for details.

• Early surrender/withdrawal penalty – This Plan is designed to be held for a long term period. Early surrender or partial withdrawal of the policy may result in a significant loss of principal and bonuses awarded. Poor performance of reference funds of the investment choices you selected may further magnify your investment losses, while all charges are still deductible.

• Market risks – Return of this Plan is contingent upon the performance of the reference funds of the investment choices you selected and therefore there is a risk of capital loss.

• Foreign exchange risks – The investment returns of your Plan may be subject to foreign exchange risks as some of the reference funds of the investment choices you selected may be denominated in a currency which is different from that of your Plan.

• Early termination risks – In the event that the value of your policy becomes insufficient to cover the policy fees and charges as stated in page 5 to 6 of this statement (due to any reason including but not limited to the application of partial withdrawal[s]), your policy will be terminated early and you could lose all your premiums paid, bonuses and insurance coverage.

IS THERE ANY GUARANTEE?

• This product does not have any guarantee of the repayment of principal. You may not get back the full amount of premium you pay and may suffer investment losses.
OTHER FEATURES

• The following will be paid to you at specific times in the form of an extra allocation of notional units of the investment choices you selected to your policy account:

  a) **Extra Allocation** – The amount of Extra Allocation is determined by the amount of single premium you paid and is payable upon confirmed receipt of your single premium of USD 25,000 or above.

     In case the life assured commits suicide within 1 year from the date of issuance of the policy, the original amount of Extra Allocation previously credited to your policy will be first clawed back from the value of the policy account before we determine the benefit proceeds payable. Regarding such claw back, no adjustment will be made in respect of the investment gain or loss arising from the notional units of investment choices allocated for the Extra Allocation and the corresponding fees and charges that have been levied on these notional units.

  b) **Loyalty Bonus** – The bonus, which is calculated by reference to a bonus percentage determined by the year of your policy anniversary, is payable on each policy anniversary starting from the 6th policy anniversary provided that the value of the policy account is maintained at USD 8,000 or above on the relevant policy anniversary and the policy is still in force by the time when the bonus is payable.

     The above-mentioned bonuses will then form part of the value of the policy account and will also be subject to the relevant charges applicable to the policy account.

• **Accidental Death Benefit** – It is payable in addition to the Basic Death Benefit in the event of accidental death. The amount payable is equivalent to the higher of (1) 100% of the value of policy account; or (2) 100% of the amount equivalent to the single premium paid less total partial withdrawals (including the relevant Redemption Charges deducted in respect of such withdrawals, if any) during the term of the policy. Accidental Death Benefit is payable in addition to the Basic Death Benefit in the event that the life assured passes away within 90 days as a result of an accident. The accident must have occurred while the policy is in force and before the relevant policy anniversary which comes immediately after the life assured reaches age 71 (age next birthday). The maximum total amount of the Accidental Death Benefit payable for the same life assured under all PRUlink single premium investment plan policies issued in respect of that life assured is USD 250,000.

• Please refer to the Product Brochure for details of the Plan.
WHAT ARE THE FEES AND CHARGES?

Prudential reserves the right to vary the policy charges or to impose new charges with no less than 1 month’s prior written notice or such shorter period of notice in compliance with the relevant regulatory requirements.

Assurance Charge (Cost of Insurance)

The Assurance Charge is an amount payable for the Basic Death Benefit provided by your Plan. Amount of Assurance Charge is calculated according to the net amount at risk and determined by reference to the sex and age next birthday as of the beginning of the policy year of the life assured.

- Monthly Assurance Charge for the PRUlink single premium investment plan = Annual Assurance Charge rate per USD 1,000 net amount at risk ÷ 12 x Net amount at risk ÷ 1,000

Where,
- Net amount at risk = Basic Death Benefit of the PRUlink single premium investment plan – the value of policy account in our record on the Charge Deduction Day\textsuperscript{a}.
- The Assurance Charge rate for PRUlink single premium investment plan is determined by reference to the sex and age next birthday as of the beginning of the policy year of the life assured.

- The table below sets out some indicative annual Assurance Charge rates per USD 1,000 net amount at risk for the PRUlink single premium investment plan. These are for illustration purposes only and may vary according to the age next birthday of the life assured. You can refer to the illustration document for the details of your personalised Assurance Charge rates applicable to the policy.

<tbody>
<tr>
<td>+ Please note that the Assurance Charge may become significant as the age of the life assured increases. This may result in significant or even total loss of your premiums paid. The applicable Assurance Charge rates will be made available to you upon your request.</td>
<td></td>
</tr>
</tbody>
</table>

Please note that if the value of the policy account becomes insufficient to cover the applicable Assurance Charge, your Plan will be terminated early and you could lose all your premiums paid and benefits.

Redemption Charge
The Redemption Charge is a specified percentage of the partial withdrawal amount upon partial withdrawal or the value of the policy account upon surrender:

- Redemption Charge applicable to partial withdrawal:
  Partial withdrawal amount x applicable rate as shown below
- Redemption Charge applicable to surrender:
  The value of the policy account x applicable rate as shown below
- The Redemption Charge rate will be determined by reference to the policy year during which the policy is surrendered or the partial withdrawal takes place:

</tr>
<tr>
<td>5</td>
<td>1%</td>
</tr>
</tbody>
</table>

For details of the specified percentages of the Redemption Charge, please refer to the “Summary of charges” section in the Product Brochure.

Switching Charge
Currently nil

Redemption Charge
The amount of partial withdrawal upon partial withdrawal; or in case of surrender, from the value of policy account before the surrender value is paid to you.

Please refer to the “Summary of charges” section on page 12 to 14 of the Product Brochure of PRUlink single premium investment plan for details of the charges.

Reference fund level
You should note that the reference funds of the investment choices you selected may have separate charges on management fee, performance fee, bid-offer spread, switching fee and/or other recurring fees.

Currently, the management fee levied by the investment managers of the reference funds ranges from 0.25% to 2.05% per annum of the net asset value of the reference fund. You do not pay these fees directly: the fees will be deducted and such reduction will be reflected in the unit price of the reference fund.

For details, please refer to the Product Brochure of PRUlink single premium investment plan, the Summary Information for Investment Choices and the offering documents of the reference funds which are available from Prudential upon request.
WHAT IF YOU CHANGE YOUR MIND?

- Cooling-off period
  - Cooling-off period is a period during which life insurance policyholders may cancel their policies and get back their original single premium (subject to market value adjustment and less any partial withdrawal) and levy paid within the earlier of 21 days after the delivery of the policy or issue of a notice to you or to your representative. Such notice should inform you of the availability of the policy and expiry date of the cooling-off period. Please refer to the cooling-off initiative issued by the Hong Kong Federation of Insurers (“HKFI”) from time to time for reference.
  - You have to tell Prudential by giving written notice. Such notice must be signed by you and received directly by Prudential at 8/F, Prudential Tower, The Gateway, Harbour City, 21 Canton Road, Tsim Sha Tsui, Kowloon, Hong Kong.
  - You may get back the amount you paid, or less if the value of the investment choices chosen has gone down.
