Thank you for choosing Prudential.

In view of the volatility and risk level of an investment choice¹ may change from time to time, Prudential will review and update the risk level of the investment choices regularly. According to our recent review, the risk level of the following investment choices will be increased with effect from 30 June 2020.

#	Name of Investment Choices ¹	Code	Risk level before update	Risk level effective from 30 June 2020
1	Eastspring Investments World Value Equity Fund	EWV	2	3 (up by one level)
2	Templeton Global Equity Income Fund	TGI	2	3 (up by one level)
3	Eastspring Investments Japan Dynamic Fund	EJD	3	4 (up by one level)

As a holder of the units of the above investment choices¹, **please be noted that the updated risk level may not correspond to your result of suitability (investor risk profile) assessment which you have completed. You are therefore advised, at your sole discretion, to review the suitability of these investment choices¹.**

If you do not wish to accept the changes, you may choose to switch your existing units of the above investment choices¹ and redirect your premium allocation / dividend allocation to other investment choice(s) by submitting a request to Prudential. You can arrange your request through our website www.prudential.com.hk at myPrudential or submit to Prudential the duly signed form available from your consultant or our Customer Service Centers. Currently, you can opt for an unlimited number of switching of investment choices and change of premium allocations or dividend allocations for future contributions under your policy without incurring switching charges. Or else, you are not required to take any action for the changes described.
